IFAI announces the 2009 International Achievement Award winners

(Roseville, MN – Sept. 24, 2009) – The Industrial Fabrics Association International (IFAI) today announced the winners of the 2009 International Achievement Awards for design excellence in specialty fabric. The award ceremony took place at IFAI Expo 2009 at the San Diego Convention Center, where the annual trade event will run from Sept. 23-25. IFAI Expo is the largest specialty fabrics trade show in the Americas.

For more than six decades, the IFAI International Achievement Awards has recognized excellence in design, innovation and truly spectacular work in the specialty fabrics industry.

This year marks the 62nd annual competition. Entrants were encouraged to submit projects and compete in 28 competition categories. In all IFAI received 416 entries from 17 countries. Entries were judged by industry experts, editors, architects, educators and design professionals who were selected for their knowledge in particular field of study or product area. Winners were selected based on complexity, design, workmanship, uniqueness and function.

IFAI encourages specialty fabric projects of all sizes and type. The goal of the International Achievement Awards is to promote awareness of the specialty fabrics used in thousands of products. All the entries receive prominent recognition at the annual IFAI Expo, the official trade show of the Industrial Fabrics Association International. Additional publicity is received through coverage in IFAI magazines, as well as through press releases sent to media professionals.

The International Achievement Awards competition is sponsored by IFAI, a not-for-profit trade association whose 2,000 member companies represent the international specialty fabrics marketplace. The 2009 International Achievement Awards were presented during IFAI Expo 2009, the Americas' largest annual specialty fabrics event, Sept. 23-25 in San Diego, Calif.

Following is a complete list of award winners by category. High-resolution photos and detailed project descriptions of the award winners will be available to the press following IFAI Expo 2009 at <http://specialtyfabricsreview.com/projects/iaaawards>.

About IFAI—The Industrial Fabrics Association International (IFAI) is the only trade association in the world representing the entire technical textiles industry value chain. IFAI was founded in 1912 and is today comprised of 2,100 member companies in 58 countries. IFAI supports a global membership with world-class trade shows and conferences such as the annual IFAI Expo (2009 in San Diego), IFAI Expo Asia (2011 in Singapore), the Advanced Textiles Conference (2010 in Paris), the IFAI Canada Expo, IFAI Japan Showcase; and specialty conferences and workshops in Australia, China and Mexico.

In addition to three country sectors (Canada, Japan and New Zealand), IFAI is organized into 12 niche end-market divisions including automotive, geosynthetics, marine, awning, light-weight structures, safety, medical and protective products. Members' products span the entire spectrum of the specialty fabrics industry, from fiber and fabric suppliers to manufacturers of end products, equipment and hardware. IFAI also publishes seven award-winning industry magazines – in print and online at www.ifai.com.
